- Selection made by FIVB based upon NORCECA nominations

NORCECA Refereeing Commission

CHALLENGES:

AFECAVOL

- Improve level of referees to work at NORCECA & PANAMERICAN level
- 13No new prospects for course very poor English or none few exceptions, with no annual activity registration

CAZVOA

- There is still the issues with the registration of Referees with the National Federation with FIVB.
 - Because of this, national referees are unable to participate in the Continental Referee Courses, thus reducing the development of the referees in the zone.
 - Continuity of referees participating in the CAZOVA Championships, which can aid to their development to participate in the Continental Referee Courses.
 - The need for more female referees at the CAZOVA championships.
-

NORCECA Refereeing Commission

EVCA

- Although the registration of referees has improved, we still see that some NF's are not in full compliance. Which takes away possible opportunity for regional national referees to be eligible to participate in courses
- In 2021 a virtual national referee course organized CAZOVA/ECVA collaboration where 24 candidates were certified. Unfortunately, very few of these candidates are sent to the ECVA tournaments or even officiate locally for their NF's
- Not enough development possibilities for the region
- Lack of initiative to keep up with the theory
- Lack of practical experience for active IR's, Continental IR's and Continental IRC's.
- Not enough chances for ECVA referees to be able to work in tournaments.
- Challenge for succession ECVA Referee Commission.

NORCECA Refereeing Commission

NORCECA International Referee Candidates (Volleyball)

- NORCECA has hosted two International Continental Volleyball Referee Candidate courses (2017-2019)
 - Total participation – 26
 - Total referee that have completed match criteria – 24 (92%)
 - Match criteria (2 as First Referee and 1 as Second Referee)
 - Objective that Candidates complete criteria in first international competition (Zone or NORCECA)
